You are enough.

Sometimes people will shy away from the church because they feel that they must have it together before they grace the doors. This is the enemy speaking, as God says that the doors are open for all who want to enter. As hard as I try to get it right on a daily basis, I still find myself missing the mark more often than I want to admit. This doesn't mean give up and walk away. It means "keep coming back."

By getting involved with my church, I have found ways to connect with others who often have some version of the same type of story. Having a relationship with God isn't about being perfect, it's about seeking Him and learning to reflect his love and light. In this group, we will share ways that we work everyday to be a better Christian. You are enough!

Seek the Truth, Sister

My name is Rosa — I am a wife and mama of three who loves Jesus and the Bible. I spend a lot of time reading scripture simply because I have fallen in love with the word. I truly believe scripture is everything — it is the most powerful tool we have to live in an ungodly world. I have experienced the transformation that takes place in us when we dig deeper into the word of God. It is powerful and life changing! So much, that I want others to experience the goodness that comes from knowing bible. I have made it a mission to point others to Jesus and to shine the light on the truth.

I know that reading the Bible from cover to cover can be intimidating at times or it may just not be something we think about doing everyday. But, the truth is we need the word in our everyday lives. In our session, we will go over the basics of how to start reading the Bible, how to make it a priority and how to thoroughly study it. My prayer is that you walk away excited and ready to start your bible reading journey. I am grateful to have this opportunity to connect with all of you and I can't wait to see what God has in store.

Finding Balance: Approaching Health in a Holistic Way

True health comes from a holistic approach where we look at the whole person and all parts of our life rather than a one-size-fits-all diet plan. Many factors, such as sleep, stress, relationships, internal thoughts, and multiple other areas, can impact our wellness. Let's look at where you are with your current health, give you tools to help you get where you want to be, and see how we can invite God into the process.
